DETAILED ACTION

Allowable Subject Matter

Claims 1-11 are allowed. The following is an examiner's statement of reasons for allowance:

The closest prior art appears to be SU 250155 (CAPLUS abstract) which teaches a compound structurally related to those of the instant invention (RN=20638-06-6). The instant compounds are neither taught nor suggested by the cited prior art, however. Nor would it have been obvious to one of ordinary skill in the art at the time of the invention to modify the compound of the prior art in order to arrive at those of the instant invention. There is no motivation to do so.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
